Subject:
I think we are almost there

We are good to go: The assessment team will fly to Charleston on Monday, September 17th, starting the lab reviews at 9 AM on Tuesday 18th (begin at main lab and then traveling to Big Chimney) and close out with be Wed. 19th. We will perform the review of the WV Lab Cert program on the 20th and 21st. TomO we had thought an observation of a lab assessment should be of a micro lab as we observed a chemistry assessment last time. Either day (Thursday or Friday) would work for us for that observation and we will spend the other day reviewing program files and interviewing WV COs. Please let us know if a micro lab on-site can be scheduled at that time (on either of these days) and ideally be located in or near Charleston.
